DIGITAL ELECTRIC METERS

Cell Towers, WIFI, Smart Meters... = Disease & Death in Humans and Nature!

Harm to People & Pets

↓ ↓ ↓ ↓ ↓ ↓ ↓ ↓
The Federal Communications Commission (FCC) who supposedly regulates the safety of wireless tech, was recently sued by Robert F. Kennedy, Jr's Firm and Environmental Health Trust. The FCC LOST and a Federal Appeals Court Judge rebuked them for "ignoring the studies showing harm from wireless tech". The FCC was ordered to immediately pay for the 11,000 pages of evidence showing harm!

Harm to the Environment, Wildlife & More

<https://emfmadness.wordpress.com/2019/05/11/the-unspoken-truth-emfs-threaten-1-million-species-with-extinction/>

This link (bottom half of page) contains four Amicus Briefs submitted in the RFK, Jr. suit. Three of them appear to also be

submitted in the RFK, Jr. suit. Three of them appear to also be listed in the Environmental Health Trust suit EXCEPT this one where 57 doctors report on their tremendous upsurge in patients being sickened by wireless tech: <https://wearetheevidence.org/81-organizations-urge-pa-supreme-court-case-to-reject-smart-meters-mandate/>

Key Documents filed by Environmental Health Trust <https://ehtrust.org/environmental-health-trust-et-al-v-fcc-key-documents/>

Here's a 2 min video clip of Dr. Devra Davis regarding the suit. You should hear the final words: <https://www.youtube.com/watch?v=HaequHb-yc4>

The four Amicus Briefs at the end of the document above are a quick

extinction!

• Migratory Birds Affected by Electrosmog: <https://www.bbc.com/news/science-environment-27313355>
 "In essence, he found that birds exposed to electromagnetic "noise" between 50 kHz and 5 MHz lost all sense of direction. But when the field was blocked out, they found their bearings again. Prof Mouritsen said that migratory birds flying over towns and cities, where there are more homes and businesses that use electrical devices, would be most affected - and they would probably resort to back-up navigational systems."

• Migratory birds being affected by magnetic fields: <https://www.audubon.org/news/lost-birds-rely-earths->

~~hair standing on the arms coming south out of Eureka Springs, driving along side the power lines!~~ Sounds like they're "radiating antennas" doesn't it?

THIS IS THE OZARKS AND CANNOT BE ALLOWED!

These meters are not "wireless" but they are "digital" and have some known and undesirable traits such as deadly readings coming from electric outlets into serviced homes & public buildings. They're being FORCED on SO CALLED "members" by a utility CORPORATION who likes to be called a "member owned COOPERATIVE". According to reports by locals they also lock said "members" out of public meetings and control who gets on the board and then tell those members what THEY voted for by these "rigged" representatives. So how is it that the members would FORCE undesirable technology onto themselves? Where's that

The four Amicus Briefs at the end of the document above are a quick study on the issues.

https://www.naturalblaze.com/2019/04/wild-bee-population-

how is it that the members would **FORCE** undesirable technology onto themselves? Where's that INFORMED CONSENT?

As well, this power line communication system being used here is known for producing a 24/7 high-pitched tone which many hear in the area. Locals say it began immediately after installation of these new meters. Very dangerous Stetzer meter readings are being found in many homes and public buildings. There is MUCH to know about this system. The explanation that power lines were designed to carry current and this system now has them also carrying data is reportedly the reason for the 24/7 squeal in the air here.

A 70 year old Chief Inspector for the Board of Electrical Examiners and Licensing in Little Rock, AR, Charles Covington, retired 10/01/21 but still reachable, adamantly declares "If y'all are hearing that it means there's a

NOT endorsing any products, just

~~has been paid to plants with studies reporting various, sometimes contradictory~~ effects. This review is an attempt to provide a critical appraisal of the available reports regarding the impacts of these radiations on plant development and the underlying physiological, biochemical, and molecular mechanisms involved.

Here, we propose that the main entry point for the biological effects of EMF-r corresponds to an increase in ROS metabolism and cytosolic calcium that leads to various cellular responses including changes in gene expression and/or enzymatic activities, which could ultimately result in immediate cellular alterations or delayed plant growth. This may constitute a new perspective in the interpretation of plant responses to EMF-r exposure. Understanding the impacts of EMF-r and the inherent

investigates the dangers of daily exposure to wireless technologies – including the devastating effects on our health from infertility to cancer – and suggests ways to reduce overexposure.
<https://generationzapped.com/>

Triggering Agents of Electromagnetic Sensitivity, a presentation and Q&A by Dr. William Rea, M.D.. Dr. Rea presented his compelling evidence and recommendations for a healthier world at Creating Safe Havens in a Toxic, Electromagnetic World, a conference hosted by the International Institute for Building-Biology & Ecology.
https://www.youtube.com/watch?v=Y06y4S_5GSg

I AM AN EMF REFUGEE

WIFI REFUGEES DOCUMENTARY

"Electrosensitive people insist that Wi-Fi and cell phones are inflicting constant harm on humans, animals, and nature. Their testimonies are not the only evidence that non-ionizing radiation may not be as harmless as we have been led to believe. Scientific studies that have been conducted on plants, insects, and mice suggest these electromagnetic waves may be damaging living organisms. Scientists from around the world have appealed to the UN, warning of the negative, long-term effects that electromagnetic fields could be having on animal and plant life. At the moment, electrosensitive people have no choice but to flee to the woods or distant rural areas that wireless technology hasn't yet reached. This often means leaving their families behind. Such sanctuaries are not easy to find, however, and they are becoming scarcer by the day. Sufferers warn that they are just the first to have

Find and use "Blue Light Screen Blockers aka Blue Light Filters" even on your television screens.

"tests have found that over exposure to blue-violet light has the potential to put us at greater risk of **macular degeneration**, a leading cause of blindness". What if the next generation running our country are all blind from their stupid phones?

Write your Legislators, (local, state, and federal) and DEMAND a MORATORIUM in your area!

Monthly Meter Readings can easily be called in on a modern phone system or via

Related to the information within a dense book GOD INSISTED be written, ~~Getting What I Deserve~~ and the Public Health Warning (Featured Post) on the NoATT.blog

May 27th, 1990, A.D.
I wrote down a message GOD spoke to me.
"Isaiah 54 Shall Apply" is what it read.
I noted it in a first adult journal and then I went to bed.
28 years went by before someone brought this back to mind.
When I went back to read it, I was amazed by what I'd find.
It was like reading a story of where all I had been.
It even showed my divorce, which I didn't see back then.
I recalled one idea that I'd "be moved to a place with a gemstone foundation".
NOW, I knew I was to awaken people to a dangerous situation

~~introduced on several podcasts~~ and ~~more being and is~~ being taken up nationally by several activist groups, taking on a viral nature, the following link can be provided here as there is now much less incentive to intimidate or harm us for revealing what's going on.
The milk is out of the cow! ☺
This is a Free to View and "Open-Source" document, which means it can be printed freely and distributed by anyone as long as it's not for profit or gain! An image on the post shows what they look like printed.
Donations appreciated but not required. If we don't get this part right, not much else matters as you'll soon see. There IS a measure of hope. The question is whether we're willing to do what it takes to change the course we're on.
These little "beasts" are now being mass produced and neighborhood groups are forming all over the USA by angry citizens.
Suggested people to share them with: family, friends, neighbors, doctors, nurses, lawyers, alternative

~~modern phone systems or~~ computers. Destroying the environment and health of citizens is not justified by tech convenience.

*I had sought to live a **PURPOSED LIFE** seeking God's presence every day.
 So He could tell us a story and help us find His way.
 It's been a challenging but fruitful journey, an alternative path I took.
 God then insisted I write an extensive book.
 It had been out about a year when the story took a radical turn.
 There were urgent things He needed to show me – we have a lot to learn.
 Our launch of wireless technology is the subject that's caught His eye.
 If we don't stop this a lot of things will fry!
 As it turns out as we arrive at 2023, I found myself thinking about May 27th, 1990, A.D.
 How I'm exactly where that chapter in Isaiah said that I would be.
 I enjoy looking for God in the story as it assures this isn't "just me".
 First thing I notice in 2023, is that message is turning 33.
 Realizing this year, 66 years I've been livin'
 But realized too I wasn't actually*

chiropractors and massage therapists, parent/teacher organizations, school administrators, day cares, nursing homes, memory care centers, your state public service commission that oversees utility providers, your utility company, permit writer's for cell towers, state attorney general's office, city, county and state health departments, investigative journalists and news outlets/editors, real estate agents, state real estate commission, electricians, electrician's unions and their licensing board w/suggestion that EMF measurements, meters, and mitigation be added to their license requirement, and home inspectors...that should give you some places to start.

Healing EMF Sensitivity

Many things can cause high copper in the body and exposure to EMR can't be eliminated as a possible contributing cause. Stress, diet...Then high copper to zinc ratios can make you EMF sensitive. Copper can be lowered by correcting the zinc to copper ratio. zinc lowers copper but

~~https://www.es-forum.com/How-I-Healed-EMF-Sensitivity-td4030455.html~~

33 when it was given.
 "But wait a minute" my mind ran ahead.
 "How many days between those two?" I said.
 I could hardly believe the answer when it was shown to me.
 3 weeks and 3 days later I turned 33.
 One step further, as I look around. Another set of 3's is what I found. February 2023 helps me to know. We arrived here 3 years and 3 months ago.
 I can't believe my eyes as I look across the nations. And see the boundless destruction caused by corporations.
 Think of the seeding birds, the flora, and the bee
 Living without them is a life we don't wanna see.
 So, when I say "I've been sent" to help you see the error in humanity's direction.
 I hope you too can see the thumbprint of God and know the information comes with deep affection.
 Before I go, I just have one question.

...go in the grocery store or the post office or the hardware store. You can't access medical care or dental care...and the most disheartening of all is that the world doesn't seem to care. Our illness is very inconvenient for all the plans in place. Damn us and the bees. Notice: Wireless has not made us better humans!

Massachusetts is presenting a bill
 Bill H.2158 193rd (Current)
 Session:

An Act recognizing EMS (ElectroMagnetic Sensitivity) as a disease dangerous to the public health, requiring inclusion in MAVEN, establishing the Massachusetts EMS registry and requiring biennial reporting as part of population health trends

By Representative Farley-Bouvier of Pittsfield, a petition (accompanied by bill, House, No. 2158) of Tricia Farley-Bouvier, Vanna Howard and Mary S. Keefe that the Department of Public Health add electromagnetic sensitivity (EMS) to the list of diseases dangerous to the public health. Public Health.

<https://malegislature.gov/Bills/193/H2>

ratio...zinc lowers copper but you'll need supporting nutrients. Check out this man's story of how he healed himself!

<https://www.es-forum.com/How-I-Healed-EMF-Sensitivity-td4030455.html>

An IMPORTANT article on copper toxicity from his forum:

<https://www.melissadianesmith.com/Articles/CopperOverLoad.html>

Dr. Klinghardt, south of London reports that giving his adult patients 20 to 50 mg's of methylated folate for 3-4 months has returned their nervous system to normal. I do wonder how these measures would help the wildlife. FYI: They won't so we should correct our wireless habits.

If you want a "marked up" for emphasis copy of this excerpted website to distribute, as long as it's not for profit or gain, go here: <https://neighborsorganizingagainstrespassingtechnology.blog/2023/04/18/this-shocking-website-content-is-going-to-governor-sarah-huckabee->

UPDATE: I've been made into a "human meter" by my injury from that new cell phone and that's turned out to be a sick kind of gift. So, I had not left this home place since September of 2021 when we found the new cell tower south of Jasper. "Prudent avoidance" is key to getting well so... This past Friday (5/12/23) we attempted to see if we could find a top end to Smith Mountain Road so I could avoid it. We have friends in town who put a contract on a home on that road, which is down in a valley and has very weak cell service. They're from Oregon and they recently discovered 9 towers in a 3-mile radius of their home. She's already lost one adrenal gland to cancer and if you think 9 towers is necessary for phone support you should think again. Most people have 300+ and one person recently reported 700. See AntennaSearch.com to check your home/office/schools. I selectively joined them in some of the home search which put me in Parthenon, Hasty and Yardelle. What I found there made me cry. Not from the beauty but because I could feel the new tech saturating pockets in the area...It's all being cooked by the towers we knew nothing about...**NO PLACE IS BEING SPARED FROM THIS INVASION!** My suspicion in Parthenon is that I'm feeling one of the four new transmitter/repeaters placed by the state of Arkansas and PBS. When they launched this, I woke up in **SEVERE** vertigo. I'd been managing it for about 10 days when Mom came home with the newspaper announcing the new additions to our world. It has seemed like nobody really cares about me or what my story shows them, but I do hope they'll stop to think about how the wildlife are responding as they are the food supply system. 😞 If the bees could type...

Correlation found between CWD and electric meters
CWD= CHRONIC WASTING DISEASE

December. Dec 2019 46 yr old Sheriff's wife dropped dead of a heart attack. Dec 2020 Lesa Tanner Massengale, 60 y.o., died 5-8 masses found on same side of brain as electric outlet abnormally high up on wall even with her head. DEADLY READINGS found in the outlets. Dec 2021 Candace Sexton, 54 y.o. healthy, happy beautiful soul dropped dead of a heart attack. She worked in the same building as Lesa for 15 years where the DEADLY READINGS were found. Then found in almost every public building checked thus far. NONE checked are in the safe range. I'm tired of trying to wake them up here so we'll just see who drops dead this year! Humans are very hard to help. Who ignores meter readings and a 70 yr old Chief Electrical Inspector who says "There's a problem up there"? 😞

I'm new to newton country. I was Montgomery I had a home in mt. Ida. I won't go back to because there is electric in the air of the house. Both me and my daughter seen it multiple times. I'm not very educated so nobody listens I just wanted you to know I believe you. I can't explain it all because I don't understand. But I hear the sounds and see electric in the air. I about broke my knee cap trying to get away from it once. Popped up right in front of us. I'm so thankful somebody else knows what I'm saying. Things have changed I can hear sounds I never heard before and I've been thinking I was nuts to! Just wanted to reach out and say hello and I appreciate the article

This msg reminded me of two friends returning from Eureka Springs recently had their arm hair standing on ends as they drove alongside the powerline.

live near Danville
Arkansas and are
interested in making

hair standing on ends as they drove alongside the powerline.

live near Danville
Arkansas and are
interested in making
contact with you. We
were forced to leave my
home of 54 years
because of Cathleen's
hypersensitivity to all
the wireless radiation.
Would like to be active
here in Arkansas
agaubs

against cell towers etc.
Hope you will 'act
her via my fa ck.

90 y.o mom has 62 y.o. daughter who's reacting to wireless tech. Nicor Gas Co threatened to condemn home if she rejected the new meter. FORCED them to move from a home MADE SAFE for her "sensitive" daughter w/water-based stain and paint. FORCED OUT!

IS THIS OKAY WITH YOU?

My Dad was a Master Electrician who built the Consumers Energy building on Parnell Rd in Jackson...he didn't put their substations next to the CEO's office he put it out in the parking lot.....My Dad also worked on the St. Lawrence Seaway Electrical Grid in the 50's He also formed the Electrical Union for Goodyear Tire and Rubber in the mid 1940'sI have spoken with Dr.Richard Tell Ph.D who tested 150 Smart Meters for ITRON,INC While living in Harbor Springs, Mi and their City put six Smart meters on our quadraplex in Feb 2010 and we all got the side effectsso I talked to ITRON 3 times and Dr. Tell one hour he said ...
.Legislation has to be written to put a limit on WIFI /EMF's so they abide by itFCC increased the limit to accomodate 5G last year right ??????
THE IBEW has electrical regulations for wired electricity , but none I guess for WIFI...or Tesla's discovery....
If WE have not been successful in getting the FCC to regulate the WIFI and to test Humans' in front of the smart meters.....that is what I said to Dr. Tell , did you put a human or a animal in front of those Smart Meters while you tested them.....and he said No I was just testing the Meters to see they were able to communicate usage

NoMoreTowersInTheOzarks.org

Humans' in front of the smart meters.....that is what I said to Dr. Tell , did you put a human or a animal in front of those Smart Meters while you tested them.....and he said No I was just testing the Meters to see they were able to communicate usage onto the other

And that is exactly what Consumers energy or any other energy utility company will tell you the machine is what is tested for functionality .

Never do they test for human illness from these WIFI devices like they did or would for Wired Electricity. IBEW makes sure what they who put those wires up are trained and abide by the IBEW rules and regs...and they should be Union electricians too Protecting Human lives from harm.....

While they KNOW ,the MPSC Electrical Engineer told me backin 2010 ...pulsating Radio and Microwaves into a persons body will unravel the DNA and cause boiling of the cells and bursting them and cause cancers of the brain or testicles or lower the sperm rate and cause many health problems .

Dr. Tell admits...meters were only tested for functionality,
not tested on humans or animals

My electric meter is communicator hub level all the time. I am so sleep deprived and you would not believe how bad my tree is the back yard is looking. The meter and the big new LED street light along with 4 and 5G next door are killing us both.

Anyway, take care.

Yvonne Bell

[redacted] not really. I had a naturopathic Dr and sever others say it was Lyme's disease but never got checked. I was addicted to sugar most my life and change my diet many years ago and I am grateful for life. I am sure I am very sensitive to emf. I had 2 microwave ovens+ (both new) go out in one year. God was speaking to me. A few years ago I had to go to the hospital and they made me stay the night because my blood pressure would drop while laying down. Before I came I had horrible headaches at night and heart palpitations. I asked everyone why it always happens in my bed. Well I had 2 cell phones charging next to me in the bed. And I had them in my bed at the hospital. I had no idea....They did a brain scan and couldn't figure it out. But I saw something online about later and took my phone's out of my room. Headaches stopped and palpitations. Recently I went to Verizon and got a severe headache while waiting and couldn't lift my left arm to even drive. It was terrible.

I can't go back there ever. But now I have it coming back with

idea...They did a brain scan and couldn't figure it out. But I saw something online about later and took my phone's out of my room. Headaches stopped and palpitations. Recently I went to Verizon and got a severe headache while waiting and couldn't lift my left arm to even drive. It was terrible.

I can't go back there ever. But now I have it coming back with bad brain fogs, memory issues and headaches. I noticed it would happen in stores like Publix but couldn't figure that out. There is a cell tower 1 Mike from me.

I have been useless and unavailable for over a year. I am very tired. I am sensitive to a lot of things even medications. Could be my blood type. I am O negative and my brother too. He has a lot of issues also. Skin sensitivity and burning, fatigue and brain fogs too. At least he can work though. Thank God for my Social security check and my house is paid for. I need to move away...

I had an electronic opt out meter that nearly killed my daughter, still radiates and has a switching mode power supply. You need an all mechanical analog meter.

Reply 7h

they won't allow an opt out. The a**hats claim to be a member owned entity but then they force equipment on those members AND lock them out of public meetings + NOT member owned in function.

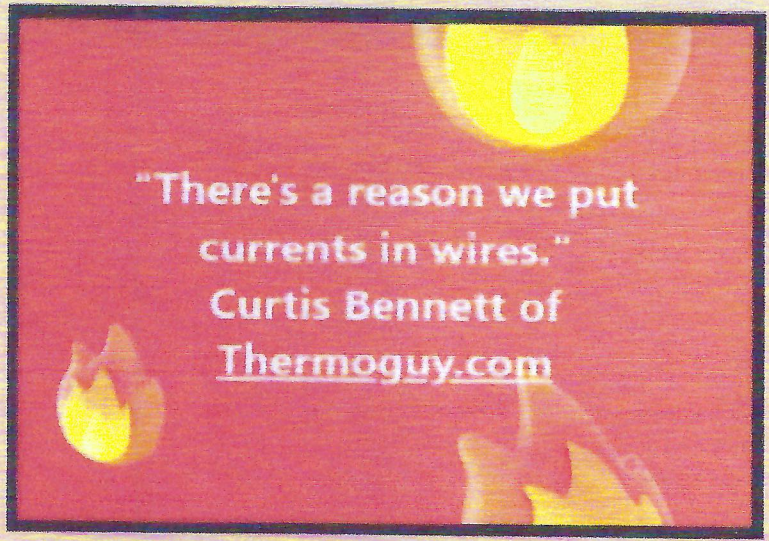

Like Reply 1h Edited

initially, there were no opt outs where I am in MD. A grassroots org brought it to a delegate, assisted in putting in an opt out bill. I testified at the hearings. The State legislature directed the power company to put in an opt out program, in part, because the science was not in regarding safety.

Unfortunately, the opt out program did not require all analog mechanical meters. I fought long and hard to get the analog meter back. Just prior, I had bought an analog and was preparing to replace myself, with news media present. There is a site, freedomtakers that had letter templates for contacting other agencies like the police and media. The police to let them know it was not illegal. I even notified my workplace as I hoped not to lose my job. My daughter was dying, what choice did I have?

WE THE PEOPLE CANNOT ALLOW THIS TO CONTINUE! CORPORATIONS DO NOT HAVE A RIGHT TO COOK THEIR CUSTOMERS WITH TECHNOLOGY

CARROLL COUNTY NEWS

Opponents in lawsuit directed to respond

Friday, September 16, 2011

By Kathryn Lucariello Carroll County News

CARROLL COUNTY -- The Arkansas Public Service Commission on Sept. 2 delivered an order to both sides to file briefs and replies in the complaint against Carroll Electric Cooperative Corporation by Dane Schumacher and Gordon Watkins as a class action on behalf of all Carroll Electric members.

The complaint was filed July 19 and names Carroll Electric and its board members and administration, along with the Public Service Commission itself as offending parties.

The core components of the complaint request declaratory and injunctive relief, seeking "increased transparency, more democratic governance, repayment of capital credits, a halt to the use of herbicides without the landowners' permission and more." 

The complaint lists a number of specifics against Carroll Electric's practices, including its refusal of "free and unfettered access to the cooperative's financial, operational and managerial information" and its "unjust enrichment" of board members. 

In its response to the complaint, Carroll Electric officials said the company intends to "vigorously defend" itself before the Arkansas Public Service Commission and is "confident the issues will be resolved in favor of the Cooperative."

It said more than 10,000 surveys returned before the annual board meeting rated Carroll Electric as "excellent in all categories surveyed."

Schumacher and Watkins retained the services of attorney Bill Ikard, assisted by Jordan Haedieke, of Ikard Wynne of Austin, Texas, as lead counsel and Randall Bynum of Little Rock as local counsel.

Carroll Electric announced recently it will install Smart meters on every electric account. Customers will not have a choice if they wish to continue to receive electric service. 

The installation of Smart meters by electric companies has been a controversial issue, with opponents claiming deleterious health effects from wireless transmission and objections to the loss of privacy and consent.

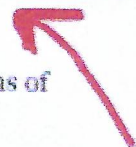

Carroll Electric says on its website that its Smart meters do not use radio frequencies to take readings.

"The cooperative's computers communicate with equipment installed at the substation, which sends a signal over existing power lines to the smart meter. The meter responds by sending the meter reading back to the cooperative via the same path. The smart meters being installed by Carroll Electric do not use radio frequencies to communicate. All communication to and from the smart meter is transmitted on existing power lines by using a secure embedded digital signal."

David Smith of Carroll Electric confirmed that the meters measure the amount of electricity going into the main breaker of a house.

"It can't tell where or what parts of the house it's being used," he said in phone message. "It knows the peak demand, but where it's being used, it can't really tell."

Ikard said Monday that Smart meters, while not a specific point in the complaint against Carroll Electric, could be a matter of concern because of the way the program is being implemented, not giving members a voice or a choice.

"We feel that's one of the many different areas where the management has ignored the concerns of member participation," he said.

Both sides have until Sept. 30 to file opening briefs and until Oct. 21 to file replies to those briefs.

After that date, a hearing will be set.

The docket of the complaint can be viewed on the Public Service Commission website at www.state.ar.us/psc/. The docket number is 11-077-C.

What gives anybody the right to file a lawsuit in my behalf?
